Ifes + Scapo = Successful Synergy 2012 equation

IFES welcomed EXPOCENTRE to its office in Brussels to kick off the joint IFES Annual Meeting to be held on 13 - 15 June, 2012 at EXPOCENTRE Fairgrounds in Moscow, Russia within the framework of the 6th International Forum of Exhibition Industry 'ISCPO 2012' (website: www.scapo.org)

The 2012 project was first proposed in 2010 during the Extraordinary General Assembly in Ghent, Belgium and officially confirmed at the 2011 General Assembly in Oxford, UK on 17 June 2011. Since then both IFES and EXPOCENTRE have worked to finalize the joint effort and begin promotion of the event.

Mr. Sergey Redkov, Deputy General Director of EXPOCENTRE and Mr. Bruno Meissner, IFES President formally signed the agreement for this occasion.

"We are all very enthusiastic about the fact that IFES will hold the 2012 AGM in conjunction with the SP Expo and the international congress and convention organised in partnership with ExpoCentre, our new member in the rapidly Russian and Moscow exhibition market. We are looking forward to have a very well attended convention and exhibition from all over the globe!" Says Mr. Meissner.

The three-day event offers IFES members and delegates joint conferences with Russian exhibition industry leaders, educational sessions focused on the BRIC market, and a large exhibition. The programme not only offers the chance to meet quality contacts but also the chance to learn about the Russian market and trends.

The joint event is to be held in Pavilion 7 on EXPOCENTRE Fairgrounds, which counts on four large exhibition halls, with one of these halls entirely dedicated to stands from IFES members and partners.

In addition to the business networking opportunities, a thorough cultural programme will be provided for visitors.

- Press releases
- Organization marketing materials
